

MAC NICHOLS

Data Science Student

Charlotte, NC | (336) 554-2658 | macnichols04@gmail.com | linkedin.com/in/mac-nichols-1a6144253 | github.com/MacNichols04

PROFESSIONAL SUMMARY

UNC Charlotte Data Science student building skills in Python, pandas, data visualization, Git/GitHub, and statistical analysis. Experience includes working directly with inventory data, system records, discrepancy tracking, and quality control in a warehouse environment, along with construction and customer-service experience. Interested in sports analytics and using data to find patterns, solve problems, and communicate clear insights.

EDUCATION

B.S. Data Science | University of North Carolina at Charlotte

Expected 2028

Charlotte, NC

- Minor: Leadership Studies

PROJECTS

College Football Offensive EPA Analysis | DTSC 2301

2026

- Exploring how weighted Expected Points Added (EPA) differs across offensive positions using college football data obtained through an API.
- Using Python and pandas for data cleaning and analysis, with visualizations created in matplotlib to communicate findings.

EXPERIENCE

Construction Laborer | Sargent Construction

06/2026 - 08/2026

- Supported daily jobsite operations in a physically demanding, fast-paced construction environment while following crew direction and safety procedures.
- Worked collaboratively with field crews, handled materials and general labor tasks, and maintained an organized work area.
- Applied OSHA safety practices including PPE, fall protection, ladder safety, and electrical-hazard awareness.

Warehouse Inventory Auditor | Harris Teeter

05/2025 - 08/2025

Greensboro, NC

- Audited high-volume freezer inventory by comparing physical pallet contents with digital system records for item and quantity accuracy.
- Investigated inventory discrepancies in internal databases, traced mismatches between physical stock and system data, and documented findings for follow-up.
- Maintained organized inventory records and reports to support quality control, order accuracy, and warehouse accountability.

Delivery Driver | DoorDash

08/2024 - 12/2025

Greensboro, NC

- Earned Platinum status while managing time-sensitive pickups and deliveries, route planning, customer communication, and order accuracy.

TECHNICAL SKILLS & CERTIFICATIONS

Technical: Python, pandas, matplotlib, Git, GitHub, VS Code, data visualization, data cleaning, basic statistical analysis

Professional: Teamwork, communication, time management, attention to detail, quality control, problem solving

Certifications: OSHA 10-Hour Construction Safety and Health, Driver's License
